

# CLEAR PIXEL | JOURNEY

- Versatile Cabinets
- Easy Installation
- Curved Lock System
- Hanging or Stacking
- Bottom Gap Design
- Unique Corner Protection

The Journey Series offers unique features not found in other outdoor flexible LED display such as modular design, easy pin connection, and independent power box. Bottom modules are above the floor and therefore cannot be damaged and provides maximum protection for module edges. Vertical lock for high precision and quick installation, and can be automatically locked when two cabinets combine. Installation can be performed by just one person. Unique curve connection design, supports concave and convex connections.
